

Proactively manage ACA compliance

When it comes to ACA administration, spreadsheets, home-grown reports, and manual calculations will do little to simplify a highly complex process with potentially significant financial consequences. Instead, cannabis businesses like yours need integrated human capital management tools that automate the process and minimize compliance risk.

Wurk gives you the tools to effectively manage regular - and variable - hour employees' benefit compliance, along with applicable reporting and a simple year-end process.

Access both real-time and historical detail on ACA status measurements for your company as a whole as well as for individual employees. Management dashboards provide consolidated views of labor pools and the ability to drill down into views for each employee. View any employee's current status or historical status by month with the ACA Timeline view.

BENEFITS

- Automate employee hours tracking against set measurement periods
- Real-time reporting provides anytime monitoring of employee's ACA status
- Streamline benefits enrollment with automatic enrollment notifications
- Accurately complete and finalize forms to submit to the IRS

Automate ACA strategy & policy

Compliance alerts notify managers when an employee's status changes to full time or part time, when an employee is approaching eligibility, and when an employee has scheduled hours that would put him or her over the eligibility limit. Alerts can also be sent to employees to notify them that they are eligible for benefits. Additional rules can help you enforce schedules and maintain your preferred full-time/part-time employee mix.

Closed-loop ACA process administration

Wurk delivers the power of a platform unified for HR/benefits administration, time and attendance, and payroll. With a single record for each employee, you can streamline and automate the benefits enrollment process as they reach eligibility. Eligibility notifications can be sent to employees with links to automate the enrollment process via simplified self-service features.

Simplified year-end process for IRS filing

Follow a simple year-end process to complete and finalize your IRS forms. Auto-populate required employee data into each form with the click of a button. Plus, Wurk is directly linked with the IRS to ensure the forms in the system are up-to-date and formatted to the specific AIR submission file specifications.

Wurk removes the burden of ACA compliance through automated hours tracking, benefit enrollment, notifications, reporting, and completing and finalizing the forms. When it comes time to file with the IRS, organizations can be confident that the forms are accurate, complete, and ready to submit.
